EDUCATION

Rajasthan Technical University, Kota, Rajasthan

B. Tech. Computer Science and Engineering

CGPA - 9.06

2021 – 2025

Shri Bangur Govt. Senior Secondary School, Rajasthan, India

Board of Secondary Education, Rajasthan

2019

Percentage - 78.40

EXPERIENCE

Zemoso Technologies

Dev Intern

Nov 2025 – Present

- Built reusable and responsive frontend components using **React.js, JavaScript, HTML, CSS, and MUI**.
- Implemented **Atomic Design principles** to develop scalable and maintainable UI architecture.
- Worked on a **Generative AI-based interview platform** designed to conduct real-time interviews.
- Integrated AI features for interview question generation, candidate interaction, and response evaluation.
- Used **Git, Python, and GenAI tools** during development and collaboration workflows.

PROJECTS

DevTinder – Developer Social App | *JavaScript, React.js, Tailwind CSS, Node.js, Express, MongoDB*

- Built a full-stack social platform for developers to connect, send/accept friend requests, and chat in real-time.
- Developed an interactive feed and chat interface using React and Tailwind CSS and managed state efficiently with Redux Toolkit.
- Secured RESTful APIs with JWT-based authentication and cookie-based sessions.
- Handled user data, friend requests, and messages using MongoDB with an Express.js backend.

NetflixGPT – AI-Powered Netflix UI Clone | *JavaScript, React.js, Tailwind CSS, Firebase, TMDB API, OpenAI API*

- Created a Netflix-like web application with a clean, responsive UI using React and Tailwind CSS.
- Implemented secure user authentication using Firebase for login and signup.
- Fetched real-time movie data including titles, posters, and ratings from the TMDB API.
- Integrated OpenAI API to provide AI-based movie recommendations based on user prompts.
- **Project Link:** <https://netflix-gpt-xi-rouge.vercel.app/browse>

SKILLS AND INTERESTS

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, FastAPI, Express.js, MongoDB, Firebase

Programming Languages: Java, JavaScript, Python

AI/GenAI Skills: LLMs, RAG, MCP, Tool calling, Prompt Engineering, Vector DB, Embedding, Langchain, AI Agents

DevOps/Cloud: Docker, CI/CD

Developer Tools: Git, GitHub, Cursor, Claude Code, VS Code, IntelliJ IDEA, Android Studio, Postman

Libraries/Frameworks: Redux Toolkit, Bootstrap, DaisyUI, Material UI

Relevant Coursework: Data Structures & Algorithms, OOPs

Soft Skills: Collaboration, Problem Solving, Communication, Teamwork

ACHIEVEMENTS

- 1000+ Coding problem solved on leetcode, codechef, coding ninja and other platform
- Knight Level (Leetcode)

CERTIFICATIONS

Anthropic AI Certifications : Claude 101, Claude with the Anthropic API, Claude Code in Action, Introduction to Model Context Protocol (MCP), MCP Advanced Topics, Introduction to Agent Skills, Claude with Amazon Bedrock, Claude with Google Vertex AI, AI Fluency: Framework & Foundations [Verify Certificates](#)
